Senfineco SynthPro 5W-30 SP ILSAC: GF-6A

Properties

SynthPro 5W-30 is an ultra high performance engine oil. It is designed to exceed the global gasoline engine specification of GM dexos1™ Gen 2.

SynthPro 5W-30 has a new improved formulation to protect against damage caused by engine knocking in gasoline direct injection engines with and without turbocharging. The composition of the oil minimises the probability of early ignition (LSPI, Low Speed Pre-ignition). Extended oil change intervals according to manufacturer's instructions. Extreme loads and high temperatures are safely mastered.

SynthPro 5W-30 can be used under all operating conditions and contributes to the protection of the environment by reducing pollutant emissions.

Application notes

SynthPro 5W-30 is recommended for year-round use in petrol, ethanol (up to E85), propane and natural gas engines.

SynthPro 5W-30 can also be used for all older ILSAC and API performance classes including ILSAC GF-5, API SN and SN PLUS.

The product is not suitable for diesel engines.
