

Mobile AirCon Service Solution

- 7" Touch Screen
- 3 Loadcells For Oils
- Updatable Database
- Design Per SAE J2788

Recovery/Recycling/Recharging
Always Solution

An important innovation from

The AC1800 featuring an industry leading Air conditioning service technologies for standard vehicles.

It combines simple operation with superior accuracy. It recovers, recycles, evacuates and recharges R-134a mobile A/C systems quickly and accurately.

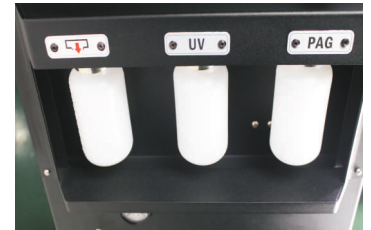

Equipment performance can match almost all the competitors from EU or US.

A really fully automatic operation guide us that all the steps can start from just one button pressing after an easy setting.

Recovery $\geq 95\%$
Recharge $\leq 15g$

Specification:

Gas :	R134a
Temperature :	5-50°C
Max pressure:	18 bar
Power:	220v/50hz
G.W. :	115 kg
Package:	60x70x115 cm
HP/LP gauges:	80mm
Tank gauge :	40mm
Screen:	7" Touch HQ
Hoses:	3m / J2196
Compressor:	3/8 hp
Fan&condensor:	Yes
Filter drier:	80kg
Vacuum pump :	80L/min 2 Stage
Tank:	14.5L
Oil bottles:	250ml
Gas loadcell:	1g/30kg
Oil loadcell:	1g/1kg
Printer:	Yes
Heating belt:	Optional
SD database:	Yes
